

OUTPUT

The screenshot shows the Docker Hub interface for the repository `hari/docker_automation`. The page header includes the Docker Hub logo, a search bar with `docker_automation`, and navigation links for Explore, Repositories, Organizations, and Help. The repository page shows the repository name, a star icon, and the number of pulls (21). The repository is categorized as a Container. The 'Tags' tab is selected, showing a list of tags. The current tag is `65`, which was last pushed 2 minutes ago by `hari`. The tag details include the Digest (`0ddec2b8ff59`), OS/ARCH (`linux/amd64`), and Compressed Size (`371.2 MB`). A button to pull the image is visible.

The screenshot shows the Jenkins Global Tool Configuration page. The page is titled 'Jenkins > Global Tool Configuration'. It lists several tools: Mercurial, Ant, Maven, NodeJS, and Docker. Each tool has a section for installations and an 'Add' button. The Docker section is expanded, showing a list of Docker installations. The 'docker' installation is selected, and its details are shown: Name (`docker`), Installation root (`/usr/local/bin/`), and a checkbox for 'Install automatically'. A 'Delete Docker' button is visible. At the bottom, there are 'Save' and 'Apply' buttons. The footer indicates the page was generated on 31 Aug 2020, 18:45:42 BST, and the Jenkins version is 2.235.5.
